

#### 3.2.1.4 Role of Other Ministries/Departments

- I. Railway is the nodal agency to deal with this crisis situation. Other ministries/departments will render help and assistance to the railways to deal with this crisis.
- II. Strike Scheme of all the concerned zonal railways is circulated to the District Magistrates and superintendents of police of the concerned districts and the Chief Secretaries and Directors General of Police of the concerned states. They will ensure that the provisions contained in the Strike Scheme booklet are read and understood by them so that the same can be implemented at the time of actual happening. Local SOPs will be drawn by the police and civil administration for facilitating ground operations at the time of crisis.
- III. Railway and civil intelligence agencies will exchange and share information indicative of any developments leading to the railway strike. Local intelligence agencies will also communicate information about the confidential activities of the Striking employees to the Railway Administration on continuous basis.
- IV. Local Civil administration and the police will actively associate in the deployment plan to be prepared by the Railway protection Force to guard the critical operational installations like signaling rooms, ASMs cabins/offices, running rooms, etc.; vulnerable locations like tunnels, bridges, etc.; manning and escorting of selected strategic trains, etc.
- V. On contacting by the Railway Administration in the event of the strike, local police and Civil Administration will extend assistance to maintain law & order to facilitate working of the railway. Local Police Agencies will also act as per the deployment plan to extend help in guarding the critical railway installations and for escorting of trains.

- VI. Local civil administration will ensure and assist railway in mustering the assistance from non-railway agencies like Public Works Departments, Irrigation departments, Private agencies in having the specialized equipment available with them to facilitate smooth operations.
- VII. Services of Para-Military services available in the affected region will also be extended, if needed through Ministry of Home Affairs.
- VIII. Territorial Army will be deployed as demanded by the Railways through Ministry of Defence.
- IX. Local fire services will be on the alert for their movement at the short notice in the event of fire/arson as reported by railways.
- X. Government owned hospitals, private hospitals and other rescue resources will be on alert to take care of any medical related contingency that may occur during this period.
- XI. All the other agencies of the local administration will be on alert to render help on short notice to ensure that railways run as smoothly as possible with all the resources pooled together.

### **3.2.2. Terrorism/Security related Crisis**

3.2.2.1 The Composition of the CMG to deal with this crisis situation will be as per **Annexure-V.**

3.2.2.2 Crisis like explosions on the Railways, large scale sabotage involving blowing up of bridges and tracks require assistance of a more elaborate nature from outside Ministries or other agencies which may have to be tackled at the National Level. Under such situations, Railways need to take the help of other Government and Non-Government Agencies for their expertise. Contact details of all such agencies should be included in the Disaster management Plans of Zonal

railways and divisions, which should be updated once every year in January. In addition to the hard copies, Railways should also have the web-based electronic versions of Disaster management Plans on their Rail net server for expeditious search of the key information at the time of Crises.

3.2.2.3 Under these situations, the instructions contained in the Railway Accident Manual/disaster management plan would be applicable with suitable modifications as required by local circumstances. In these situations the GRP and Civil Police would play a more important role as they would be investigating the criminal case relating to sabotage/explosion, which would need a lot of assistance from the railway authorities. While Co-ordination among different railway agencies would be done by the senior-most railway officer present at the site, he should specifically nominate a senior RPF officer to coordinate with the police agencies.

3.2.2.4 In cases of large-scale incidents of sabotage or explosion on railways, requiring assistance from Ministry of Home Affairs, Cabinet Secretariat and the State Governments, Director General, Railway Protection Force, will coordinate on behalf of the Railways as convener of CMG for this crisis.

#### 3.2.2.5 Role of Other Ministries/Departments

- I. Ministry of Home Affairs is the nodal agency to deal with this crisis situation. Railways at operational level will render help and assistance and will facilitate to the to deal with this crisis on the railway system.
- II. Intelligence agencies will keep informing the railway administration and the local police about the likely terrorist attacks/sabotage on the railway system. Local police will co-ordinate and liaison with railway authorities in warning of any imminent danger.
- III. Local police responsible for the maintenance of law and order in that region will have SOPs in place in co-ordination with all the other agencies like Railway Protection Force, Govt. Railway Police, locally deployed staff of the railway to guard vulnerable railway installations like major railway stations, trains, vulnerable locations, etc. It will

act according to this SOP on receipt of intimation of any terrorist/security related crisis. It will take command of the situation and order the railway authorities at the site of the incident to facilitate their operation. It will cordon off the affected area to facilitate the rescue, relief and restoration work.

- IV. Civil administration will alert government and private hospitals and rescue resources to reach the site to take care of the victims. Trauma centers, if any, in the region should be alerted to receive the victims for their expeditious treatment.
- V. Local civil administration will organize surveillance of the terrorism prone area after the event to preclude another happening.
- VI. MHA will activate National Security Guards and help from other security related agencies to reach the site of crisis and take over from the local personnel for larger operation.
- VII. MHA will also requisitioned national disaster response force, if so considered essential for the crisis and will direct the force to reach the place of crisis.
- VIII. Ministry of Health and Family Welfare is procuring a container based Mobile hospital. Once it is in position, it can be deployed for major disasters, if the situation so warrants.
- IX. Ministry of Defence will mobilize defence personnel to take over the crisis situation as per the need.

### **3.2.3 Natural factors Related Crisis**

3.2.3.1 The composition of the CMG to deal with this crisis situation will be as per Annexure VI.

3.2.3.2 On receipt of warning about any imminent cyclone, flood etc. that can affect the railway system, the concerned railway administration will take immediate steps to warn the field units well in advance to mitigate the effect of such an event. For

this purpose every zonal railways will have provisions in their respective disaster management plan which should be immediately invoked to action.

3.2.3.3 ZMG in the zonal Headquarter will assemble in the disaster management control room and will take appropriate measures to mobilize resources from all the agencies to manage the situation. It will assist, help & guide divisional railway managements in their endeavors and will organize to supplement their efforts under such crisis situation.

3.2.3.4 ZMG will also approach other ministries through NDM control room and also through the CMG in the Railway Board for any help needed at their level.

#### 3.2.3.5 Role of Other Ministries/Departments

- I. Meteorology department will communicate the natural factors like cyclone, heavy rains, earthquake related information to the local railway administration to have them warned of any imminent crisis situation.
- II. SOP for transmission of the warning to the field units will be immediately activated to take appropriate preventive measures.
- III. On serious disruption of traffic on the railways, local agencies like public works department, irrigation department, local defence and para-military units will assist railways as per the request from the railway administration.
- IV. Local civil authorities and police will assist railways in ensuring security of passengers in the stranded trains and at the stations. They will also assist in reaching water and food to the stranded passengers with help of defence/para military personnel, if so needed.
- V. Local civil administration will assist railways in harnessing resources from non-govt. agencies also e.g. divers, earthmoving equipment, etc.
- VI. Resources with all the agencies will be pooled and leveraged to help evacuation, if so needed.

VII. Department of Space will provide flood inundation map/information to the concerned Railway Administration to facilitate their being warned of any imminent crisis situation.

### **3.2.4 Major Train Accidents**

3.2.4.1 The composition of the CMG to deal with this crisis situation will be as per Annexure VIII.

3.2.4.2 On receipt of information of a Train Accident involving/suspecting injuries or death of passengers, Accident Relief Medical Equipment Vans (ARMVs) and Accident Relief Trains (ARTs) which are stationed at strategic locations, are immediately turned out for the site of accident with Doctors, Paramedical Staff, rescue workers and Engineers.

3.2.4.3 All Railway men, since their recruitment, are made aware of sacredness and vital importance for dispatch and movement of ARMVs and ARTs within prescribed time.

3.2.4.4 The Medical Team attends to the injured passengers and seriously wounded are transported to nearby hospitals.

3.2.4.5 The cost of such treatment is borne by the Railways. Dead bodies are handed over to Police for further action such as autopsy etc. for medico-legal purposes.

3.2.4.6 ZMG will also approach other ministries through NDM control room and also through the CMG in the Railway Board for any help needed at their level.

### **3.2.4.5 Role of Other Ministries/Departments**

With the enactment of the Disaster Management Act- 2005 which envisages participation by all stake holders based on their expertise, the golden hour i.e. first hour after the accident is to be generally managed by the few on board railway staff, railway staff working at the nearby areas, unaffected train passengers, local police and fire brigade, local hospitals and doctors, other relief

rescue workers in the nearby areas. Keeping the above in view, zonal railways are coordinating with the non-railway, govt./non-govt. resources available with various agencies so that the same can be requisitioned immediately to help the affected persons. This information has been made part of the Disaster Management plans of the Zonal Railways.

### **3.2.5 CONTINGENCY PLAN WHERE RAILWAYS HAVE TO HELP AND ASSIST OTHER MINISTRIES IN CRISIS SITUATION:**

3.2.5.1 Ministry of Railways will provide emergency support and assistance to other Ministries mostly in regard to rail transportation. For this purpose Ministry of Railways has issued an Emergency support Function Plan (ESF) vide 2003/Safety (DM)/6/3 dated 25.10.04 nominating Quick response Teams (QRTs) at the Ministry level and Zonal railway level as well. QRT at the level of Ministry of railways is CMG for dealing with the crises situation to help other Ministries is given at **Annexure-VII.**

3.2.5.2 The CMG will obtain directions from NCMC and organize the necessary relief operations through field level QRTs.

3.2.5.3 The concerned Ministry will make their own Contingency Plan bringing out the assistance required from the Railways, which will be mobilized.

## Annexure-X

### DO's and DON'Ts to be followed in case of accidental leakage/spillage of Oil Tanker Wagon

#### DO's:

- Go around and ensure that there are no ignition, sources nearby wagons. Have ' Dangerous' and ' Not to be loose shunted' Labels affixed on both sides of such wagons.
- Check for hot axles and sparking due to rubbing of loose brake shoes.
- Check that the spark arrestor on engine exhaust is in position.
- Check all wagons for leakages by smell or hissing sounds.
- In case of leakages through valves, check that valves are securely closed.
- (a) In case of heavy leakage which can not be stopped by closing of valves, evaluate leaks, determine repair materials and techniques to be used, contact nearest Railway Station or oil installation. Ensure that there are no ignition sources nearby and passers by do not smoke or carry open flames. Isolate the heavily leaky wagons and keep as far away from the train as possible. During isolation, take care to avoid any hammering, sparking. Keep the wagon cool by spraying water.
- (b) The Station Master shall send telegraphic/telephonic advice to
  - (i) COM (tanks)
  - (ii) Nearest train Examiner.
- (c) Fire extinguisher should be used in case of fire.

#### DON'Ts:

- Do not smoke
- Do not keep any fuel oil, lubricant oil and debris accumulated in engine rooms.
- Do not carry lighted cigarettes, matches, open flames, kerosene hand signal lamps or hurricane lanterns to the vicinity of the wagons.
- Do not use steel hammers or such other tools for checking/tapping. If required use only rubber/Teflon or brass hammer.
- Except in emergency all operations connected with handling of leaky Oil wagons must be performed during day light only and not after dark as it shall necessitate the use of lamp.

## **DO's and DON'Ts to be followed during Shunting and Assembling of Oil Tanker Wagon**

### **DO's:**

- Ensure buffer wagons is placed between engine and cargo.
- Ensure no ignition sources like burning cinders are nearby.
- Ensure there are no wooden sleepers in the areas as these can catch fire due to sparks or burning cinders.
- In case a leaky wagon has to be moved in the yard, it must be separated from the shunting engine/ pilot by at least ten wagons not containing goods or an inflammable, dangerous or explosive nature.
- The affected tanks should be separated to the maximum extent.

### **DON'Ts:**

- Do not use steam engine.
- Do not loose shunt the wagons.
- These wagons should not be passed over ash-pit.

## **DO's and DON'Ts to be followed during Transit of Oil Tanker Wagon**

- In case of heavy leakage or fire noticed on the train stop the train.
- Inspect the wagon, approach the wagon from the direction of wind to avoid exposure to vapour flames.
- In case leaky wagon has to be detached, the wagon must be placed in a siding as far away as possible, from the running line so as to avoid the risk of sparks from the engine or moving trains coming into contact with such wagons.
- In case of heavy leakage which cannot be stopped by closing of valves, evaluate leaks, determine repair materials and techniques to be used. Contact nearest Railway Station, oil installation.
- Ensure that there are no ignition sources nearby.
- Do not smoke or carry open flames. Isolate the heavily leaky wagons and keep as far away from the train as possible. During isolation, take care to avoid any hammering/sparking. Keep the wagon cool by spraying water.
- Ensure that the leaky wagon is kept under watch by an authorized person round the clock and unauthorized persons are not allowed to approach within 30 metres of the wagon.
- The Station Master shall send telegraphic/telephonic advice to:

- (i) C.O.M (Tanks)
- (ii) Nearest Train Examiner.
